Nan Copeland • www.nancopeland.com • nmcopeland1@gmail.com • **919.345.6868**

I have spent the last 10+ years as a product designer for media companies. I am looking for a job where I can work closely with product and engineering and directly shape the product. I am a self-starter, have a keen eye for details and take ownership of my work until it is completed.

PRODUCT DESIGN EXPERIENCE

Vox Media

Senior Product Designer II, Design Systems Lead *May 2024 - Present*
Senior Product Designer I, Design Systems *September 2022 - May 2024*
Product Designer, Growth *June 2021 - September 2022*

- Owns projects 0-to-1, from user & data research to code implementation.
- Partners with product and engineering to decide which features are needed now vs. later to build iteratively and optimize for speed.
- Leads design systems for all Vox Media brands (Vox, The Verge, Eater & SB Nation): balances stakeholder needs with good user experience, advocates for design systems with leadership and partners with engineers to maintain consistency and accessibility standards across sites.
- Using Cursor to prototype and implement visual QA which improves designer-to-engineer handoff.
- Drove *New York* Magazine's subscription UX end-to-end: designed a perks landing page with a 98% conversion rate and built features for the subscription flow, email signups and account center.
- Improved communications and workflows between design, product and engineering.

Slate Magazine

Interaction Designer *May 2018 - May 2021*

- Built Supporting Cast, Slate's internal podcast membership platform: designed a post-signup flow with a 90% conversion rate and maintained front-end code for public and admin interfaces.
- Led redesign of Slate's podcast pages and conducted extensive user testing on the Slate iOS app.

Industry Dive

Front-end Designer *August 2015 - May 2018*

- Designed and wrote front-end code for a portfolio of 20+ B2B media properties.
